SPM MODEL TEST 1

Part 1

Hi Danial,

It's nice to hear from you. Thanks for inviting me to the party. Of course, I'll come! It's my cousin's birthday after all.

I think you should buy her a smartwatch. The Haomi Smartwatch is only sold for RM69 in online stores. It has a pedometer, accelerator, heart rate checker, and barometer. As your sister is an athlete, she would love it. It will be something that she will always use.

I got to go now. See you at the party!

Your cousin,
Azlan

Part 2

There are so many stunning and amazing places to visit in the world. For me, I would love to visit Sarawak.

Sarawak is the largest state in Malaysia and there are so many things I can explore and see such as the abundance of wildlife, the exquisite nature, and the fascinating indigenous tribes.

The first thing that I would do is visit the national parks such as Bako National Park and Kubah National Park. I want to explore the lush rainforests and experience the nature they offer. Then, I would visit the wildlife sanctuaries. I want to see the orangutans and other rare plant and animal species. Apart from nature, I also want to visit the famous Cat Museum in Kuching, Sarawak. It would be lovely to see all things cat.

On the whole, I would visit Sarawak in a heartbeat as it is a beautiful place to visit for a holiday.

Part 3

Question 3

Hello and Bye is a wonderful book written by Susie Maine. It is a romantic-comedy novel that would make you laugh and cry.

The story revolves around a young woman named Maria who is just entering the real world. She is starting her life in college and living a normal student life. That normal life ends when she meets Ben. Ben has made Maria's life upside down when he kept on

bothering her. They are also always competing with each other at everything and getting on each other's nerves.

The book was well-written and an easy read. The ending was predictable as any other romance book but the plot moves quickly. So, there was not a dull moment when reading the book. It is funny and witty. There are also emotional scenes written in the book that tugged my heartstrings. The way the author play with the language will mesmerize you. The character development was also fluently written. You can see the major changes the characters experience throughout the book.

I recommend this book if you are looking for something light and easy to read. You could read it during your downtime and relax. The book will suck you into its world without you realizing the time that went by. This book will definitely take your mind off things.

All in all, Hello and Bye is fun, light, and an easy read. I would recommend you to read this book if you are looking for something to fill your time.

Question 4

The Bond of Friendship

'Aargh!!' Haris heard a shrill yell coming from the bushes. 'Help me!' Without a second thought, Haris dashed towards the scream. He saw a boy lying on the ground under a tree crying. He was holding tightly to his leg. Haris carefully examined the boy's leg.

'I think your leg is broken.' He told the boy to wait and raced to the village to find help. In 10 minutes, he managed to get his neighbour to help and take the boy to the hospital. Haris was relieved to hear that the boy was doing fine. Haris didn't think much about the boy after that.

It was the starting of the school year. There were a few new faces in his class. He saw a familiar visage entered the classroom; it was that boy that he had helped. The boy seems to recognize him as he chose to sit next to Haris. He introduced himself as Majid. He profusely thanked Haris for helping him. Haris was glad to see the boy marching around on his feet again.

From that moment, they kept spending time together in the evening playing games. Haris felt his world became brighter after he became friends with Majid, even school has become more fun with him around. Majid is the smartest kid in the class so he'd always helped him with his homework, and his grades also improved.

Haris could never imagine that an act of kindness would gain him a good friend. He was glad to have met Majid.

Subject: Improving School Facilities

The quality of education that students get depends on school facilities. This report is to describe the facilities at the school and to make recommendations to improve the facilities.

There are many facilities provided at our school. There is the school library, science laboratory, ICT laboratory, football field, art room, music room, cafeteria, and classrooms. Many students find the school facilities to adequate and satisfactory. The school library, for example, has almost 10, 000 books. It is also a very comfortable space for students to spend their time studying. Students also like the well-maintained football field.

Thus, there are some facilities that the students want the school to improve on. Firstly, the computers in the ICT laboratory are not enough. There are only 10 working computers and 5 are broken. Some students have to share computers with two other students during classes. The school should consider adding more computers to the ICT laboratory or fix the damaged computers.

Another facility is the classroom. There are classrooms especially in Block C that have broken windows and damaged whiteboards. Teachers also have a hard time teaching since some of the whiteboards cannot be used. This will not provide conducive learning for the students. The school should replace the windows and whiteboards immediately.

In conclusion, the school will be a better learning compound for the students if the facilities are taken care of properly. The school should follow the recommendations made above so that it can improve the facilities.

SPM MODEL TEST 2**Part 1**

Dear Ana,

It's nice to hear from you. That's fantastic news! I'm so glad we will get to see each other again after you moved. There's so much I want to tell you.

I'm free on the 7th. Let's meet up at Boba Cool. It's a comfy café to hang out and it's near to your hotel. From the hotel, walk straight along Jalan Indah for 2 minutes. You'll see the café on your right.

I got to go now. I hope to see you soon.

Your friend,
Rose

Part 2

Have you ever wondered what you will be doing in the future? I certainly have. I think I will do a lot of things 15 years in the future.

I think I will be a working man by then. I might be working as an accountant like my father. It is the job of my dreams and also a well-paying job. Thus, I would have enough money to buy a house and all the things that I like.

Also, I will be travelling to many different places. I want to see many beautiful places and experience the life and cultures of other people. Moreover, I probably will have my own family 15 years in the future. I want to get married to someone I love and have a couple of children.

I hope all of my dreams will come true. I cannot wait to see what my future has in store for me.

Part 3**Question 3**

Humans and Monsters is an action-packed film directed by Steven Sprintf. It stars many award-winning actors such as Brad Witt, Samuel Nelson, and Emma Rock. The film revolves around the world where monsters are real and they are taking over the world by going to war with humans.

The monsters like vampires, werewolves, and bogeyman, band together to destroy the humans in order to live out of shadows. Humans, of course, do not take this lightly. They are also fighting their hardest to protect their lives and homes. During a

fight between the humans and monsters, one human, Dave, and one monster, Jack the vampire, are taken hostage by the opposite party. Both of the kidnapped victims began to see the lives of the opposite enemy and realised the true nature of each other. Dave and Jack understand that the fight between humans and monster are unnecessary. After the hostage trade, they determine to change their groups' minds about the war.

Although the ending of the film is predictable, the action sequence in the film was amazing and well-executed. The special effects and makeup for the monsters were remarkable and flawless. The director paid special attention to the effects that made them believable. The plot was interesting enough to make you watch the film until the end. The actors' performance is also brilliant and they brought the character to life.

Overall, I would recommend this film as it is quite entertaining. It will be a money wellspent to watch this film.

Question 4

A Helping Hand

When a family of three moved into the empty house next door, that's when my quiet and peaceful life shattered.

It all started when my dad stepped on a cat's poo. He suspects that it was our new neighbour's cat's so, he turned on his heels and went to their house to give a piece of his mind. Turns out they have ten cats and they gave my dad excuses like 'It's impossible to control all ten cats,' and so on. My dad argued that they should just potty train their cats but to no avail. Since then, our courtyard became their cat's place to litter and my parents' dispute with them worsened day by day.

One night, I was startled by a scream and a muffled cry of "Help." from the other side of the wall. It's from our neighbour's house. I pressed my ear on the wall, making sure what I heard was not just my imagination. I could hear sobs and a man's voice talking. It couldn't be Mr Ahmad's voice because he went on a business trip. I realized that they were possibly being robbed. I quickly dialled 911. I woke my family up and told them what happened. Moments later, the police arrived. The police thanked and commended me for my quick judgement. My neighbour, Mrs Aisyah, thanked me and my family for helping her and her daughter. Since then, our relationship became a lot closer than before.

The lesson here is, no matter how bad your relationship is with someone, you must never turn blind when they need help.

Question 5

Healthy Downtime

Having spent most of our time studying, we would be left with several hours of downtime. It is important to spend this time doing something productive and students should do healthy activities.

After spending hours sitting down and bend over books, it will be great to do some physical activities. You can do sports that you like or some simple exercises. This way, it will keep your body fit and healthy.

You can also help around the house. You can do chores such as sweeping the floor, washing the dishes, or do the laundry. Besides keeping the house clean, you also take off a few burdens from your parents' shoulders.

Last but not least, you can spend the time doing hobbies. Pick up good hobbies such as reading, drawing, cooking, or even playing musical instruments. They will allow you to learn new skills or improve the skills that you have. It will improve your mental health when you do something that you like.

You will lose a lot of things if you do not spend your free time wisely. First of all, you will waste precious time. If you stay idle during your free time and do nothing useful, you will be weak physically and mentally. Your youth will only be wasted away. Furthermore, you will lose learning opportunities for various things.

In conclusion, spending your time wisely is important. Life is short, it is better to spend it on something that will benefit you rather than not.

THANK YOU!
