

ERRATA

Part 1, Set 2 – Question 2

To : Anna@gmail.com

Subject : Road trip

Hey, you! I'm currently writing this from the back of a van. Contrary to my initial belief, I am actually having a blast right now. I thought I would hate riding in a van for long stretches of time, but it's actually quite fun. The only tiresome thing is my annoying brothers' constant arguments over the use of the tablet they share. I wish they would just nap the entire time we are on the road. Thank goodness I don't have to share a room with them at every stop.

2. Which of the following is true about the email?
- A. The road trip is uncomfortable for the writer.
 - B. Everyone shares a room at the guesthouse.
 - C. The writers' siblings quarrel a lot.

Part 1, Set 4 – Question 2

Every morning, you wake up and brush your teeth. However, while brushing your teeth, you should turn off the tap. Only turn the tap back on when it is time to rinse. You are also advised to turn off the tap while washing your hands. First, wet your hands, then turn off the tap while you scrub your hands. Then, turn it back on once you are ready to rinse. It is also imperative to fix leaky faucets. This can help to save a lot of water.

2. What title **best** summarises the text?
- A. How to Wash Your Hands.
 - B. Fixing Leaky Faucets.
 - C. Ways to Save Water.

Part 2, Set 2 – Questions 9 - 18

LIGHTS

It is night time and you flick on your lights, But a theory has been (9)_____ support lately that artificial light at night may contribute to cancer. This is perhaps because it slows the (10)_____ of the hormone, melatonin.

There (11)_____ two studies that add weight to this idea.

One, from Israel's University of Haifa, (12)_____ satellite measurements of night-time light and cancer rates in 164 countries. The most brightly lit had the (13)_____ rates of prostate cancer, more than double those in the dimmest nations. Meanwhile, Harvard researchers who tracked more than 18,000 postmenopausal women reported that (14)_____ with the lowest night-time levels of melatonin were about 60 per cent more likely to develop breast cancer.

So, how can you minimise the possible risk posed (15)_____ modern lighting? Is it to walk and work (16)_____ the dark? Perhaps to light candles instead? Either way, research (17)_____ that the higher amount of light one is exposed to, the higher the risk of getting diagnosed with cancer. The answer (18)_____ simple. Sleep in as dark a room as possible.
