To begin with, the most notable problem is our school canteen is **unhygienic**. This is because **there were not enough bins around the canteen**. As a result, students either left their leftovers on the tables or they littered food packaging everywhere around the canteen. In order to solve this problem, the canteen management should **provide more and perhaps bigger bins at strategic spots** around the canteen. This will help improve the cleanliness of the canteen.

Other than that, **the service of this canteen is notably/particularly slow**. This is due to the **shortage of their staff members**. Consequently, many students could not get their food during recess and they went to class hungry/starving. What can be done to solve this problem? I personally think that the canteen management should **hire more workers**. This will smoothen the canteen operation especially during peak hours such as during recess.

To sum up, canteen is a vital part of the school and its quality and service should be maintained. In my opinion, a good canteen management will make both students and teachers happy.

## Question 2

Your class has been talking about famous tourist attractions in your country and your teacher has asked you to write an essay on it.

In your essay, you should include:

- ways to encourage people to travel locally

**C1** – A tourist attraction? – Mount Jerai

**C2** – What makes it popular? – 1. Hiking spot / 2. Fun activities / 3. Hotel and cafe

Did you know that more than 80 percent of Malaysian prefer to travel to Thailand and Indonesia rather than travelling locally? Therefore, in this essay, we will discuss about a popular local tourism spot and how to encourage people to travel locally.

Let me tell you about my choice: **Mount Jerai**. It is located in Kedah, between Kuala Muda and Yan districts. There are many reasons that make this place popular. The most important thing to do is to **upgrade the facilities and infrastructure** for the sake of the tourists' comfort. Moreover, travel agencies should **offer interesting and affordable packages** for tourists to choose. Not only it will encourage them to travel locally, it will also boost our country's economy.

Save Endangered Species!

By: Suelieman Naufal bin Amalin @ Syahir Farin

Towards modernisation, we have sacrificed many things including Mother Nature. Did you know that since 1989, over 50 species of flora and fauna have gone extinct? This includes dodo birds and Sumatran rhinoceros while many other species are becoming endangered. Therefore, in this article, we will discuss about the factors contributing to this problem and how to save endangered species.

For your information, there are many species of flora and fauna slowly facing extinction. This includes orang-utans, giant pandas and rafflesia. They are becoming endangered due to a number of factors. The most prominent factor is deforestation. Illegal logging and deforestation to make way for development has robbed wildlife of their natural habitats. When their habitats are destroyed, they slowly die out because they lose their source of food. Another alarming factor is poaching and illegal hunting. Many animals are hunted for specific parts of their bodies which are believed to have medicinal properties such as rhinoceros tusks and shark fins. These animals are hunted and left to die after their precious body parts are taken.

Every problem has solution. Endangered species of flora and fauna can be saved if we take necessary measures. The most effective way is to spread awareness to the masses via social media such as Instagram and TikTok. Other than that, authorities and non-government organisations such as World Wildlife (WWF) and United Nations (UN) can organise campaigns in every major city in the world. Last but not least, conservation and preservation of wildlife species and their habitats can help save them. It may be a slow process but it is effective in the long run.

In brief, wildlife is facing extinction as the price of our greed for development and modernisation. In my opinion, the power is in our hands to decide the future of our planet.

<p><b>Calling for articles!</b> <b>IDEAS NEEDED!</b></p> <p>We are planning to upgrade the school library. We would like to know what type of books you would like in the library. What type of facilities should be added? What can you do to make the library better? Send us your article about your upgraded school library. Write your **article**.

**C1** – Type of books? – comics or graphic novels

**C2** – Facilities should be added? – 1. Discussion rooms / 2. Game corner / 3. Private workspaces

**C3** – How to make it better? – better management

### Our School Library

By: Azriel as-Samran bin Sheikh Azwan al-Hud

Library is an essential part of every school. It is a place where students go to do revision and for group discussion. However, 8 out of 10 school libraries are still lacking in facilities. Therefore, in this article, I will share my opinion on how to make my school library better.

What is a library without books? Every school library should have a vast collection of books ranging from encyclopaedia to comic books and newspapers. I personally think that every school library **should have more comics or graphic novels** so as to attract more students to visit. Another way to attract more students to visit, school libraries should add more facilities. The most essential one is to **add more private workspaces**. This way, students can do their work or revision without interruption from other people.

Moreover, it is a good idea to have **discussion rooms**. Students often receive group tasks and assignments from their teachers. However, they may not have a suitable place to discuss. Hence, having discussion rooms can help them finish their task. Doing work can be stressful so students need a medium to blow some steam. Libraries can **provide game corners** for this reason. The corner can have variety of board games like chess and scrabble or game consoles like Playstation 5 or Nintendo Switch.

To sum up, school libraries should have more than just books if it wants to attract more students to visit. In my opinion, having the best facilities is not enough for any library to thrive if it has bad management. Therefore, **every library must also improve their management**.

Write your **article**.

**C1** – A book I enjoy reading – Harry Potter series

**C2** – How reading makes me a better person? – 1. Learn moral values / 2. Avoid unbeneficial activities

**C3** – Why reading is not popular anymore? – 1. Addiction to social media / 2. Video games

### My Favourite Book

By: Minah Hana binti Osdin Hakimi

In the olden days, reading was a popular pastime activity among teenagers. Did you know that only 4 out of 10 teenagers today actually like to read books? Therefore, in this article, I will share about how I benefit from reading and delve deeper into the reasons why reading is not a popular among teenagers anymore.

Let me tell you about my favourite book: **the Harry Potter series**. This series follows the adventure of a teenage boy named Harry who is invited to study at Hogwarts and ends up defeating the evil lord, Voldemort.

Personally, reading has made me a better person. The most notable reason is because I **learnt many positive moral values**. For example, Harry Potter is a brave yet kind person so I learnt to be brave and kind like him. Moreover, **reading has saved me from being involved in unbeneficial activities**. While many teenagers are involved in illegal racing or causing vandalism on public properties, I just stay at home and enjoy reading books in the comfort of my own room.

Despite the numerous benefits reading has to offer, it is no longer a popular hobby among teenagers. This is due to the rise of technology. **Most teenagers today prefer to play video games** such as Free Fire, Mobile Legends and e-Football rather than spending their time reading books. Meanwhile, **some other teens are addicted to the doom scrolling of social media** such as TikTok, Twitter and Instagram as these platforms offer interesting videos they can scroll for hours and hours.

To sum up, reading offers unlimited benefits to the readers. In my opinion, teenagers should read more books to ensure a better and brighter future.

Bukit Nyamok Night Market: A Review

By: Umi Rabiatul Sofea binti Abdullah Hisham ad-Din

Do you like food hunting at night? Imagine finding myriad choices of local food at affordable price. You can get this by visiting the famous Bukit Nyamok Night Market.

Recently, I had the pleasure to visit this night market. It is located at Bukit Nyamok, not far from SK Kurong Hitam. This night market, which is held every Saturday, starts as early as 6pm and closes around midnight.

There are many reasons why I love Bukit Nyamok Night Market. The number one reason is definitely the food. This place offers a wide selection of mouth-watering food such as Pattaya fried rice, apam balik and desserts like jelly balls. My personal favourite is fried chicken coated in spices. It feels like an explosion of flavours in my mouth. Moreover, there also stalls that sell preloved items such as branded clothes and shoes, accessories and even spare parts for vehicles. Last but not least, the prices of the items sold here are affordable and student-friendly. This is especially good for people who have small budget but needs to fulfil their necessities.

To be honest, I did not expect much from a night market but Bukit Nyamok Night Market had exceeded my expectations. Not only the selection is wide, the price is also affordable. This is why I would recommend this place to my friends. After all, we should all support local businesses.

Semeliang Theme Park: A Review

By: Hana Maisara binti Zulfarizan Izzat

Have you been to a theme park? Imagine spending time with friends or family at a theme park where you can walk among animals and have many fabulous attractions. You can experience all these at Semeliang Theme Park.

Recently, I had the opportunity to visit **Semeliang Theme Park**. It is located not far from Semeliang City Centre. You can get there either by using e-hailing services such as Grab or SemeliangRides or you can simply take the monorail that stops 500 metres from the entrance.

For your information, there are many things I like at this theme park. The most worthy to mention is the **petting zoo**. This zoo houses over 100 species of animals such as capybaras, chimpanzees, giraffes and snakes. In this zoo, you can touch, feed and even take photos with them. I also learnt a lot about these animals because there was a staff member who explained about the animals during exhibition time.

Moreover, this theme park provides **multiple fun rides**. The most popular rides are roller coaster, hanging bridge and Ferris wheel. They are most popular among teenagers and loving couples. I personally prefer the haunted house as the decorations inside were so realistic it gave me goosebumps! You do not need to worry about your safety because they have well trained staff members to help you.

Let me be honest, this theme park holds a special place in my heart because it was **my first experience going to any theme park** and I **had a whale of a time** there. However, I **would not recommend** this place to my friends because the entrance tickets would **cost them an arm and a leg** and the petting zoo is somewhat **unhygienic**.

### Singkir Camp: A Review

By: Hamimia Sandha a/p Kitsada

Do you have nothing better to do this school holiday? Imagine spending your time doing fun activities while meeting new people and making new friends. You can experience all this at Singkir Camp.

Recently, I spent my school holiday here. For your information, Singkir Camp is located in Yan district, not so far from Tanjung Dawai. This camp was originally built for Biro Tata Negara (BTN) activities but now it is being used for motivational camps. No food is provided here because campers need to cook their own meals throughout the camp.

There are many activities we can do here. The most memorable activity I did here was flying fox. I had to climb a 10-metre tower and the friendly and handsome instructors helped me to wear the safety equipment before I took the flight down. Another fun activity was rock climbing. I had trouble gripping at the rocks but another handsome instructor was very patient in explaining and demonstrating it step by step. On the last day I was here, the handsome instructors took me and other participants to the nearby jungle. We trekked through the woods and hiked our way up to the top of the hill. It was a very tiring experience but the magnificent view from the top was worth every drop of my sweat.

To be honest, I actually dreaded the idea of going to any summer camp but I left Singkir Camp with unforgettable memories and a wide smile on my face. If you want to experience the same fun experience, this camp is highly recommended for you.

5-Minute Craft Projects: A Review

By: Mursyid Amina Bin Ieman Firdaus

Have you ever watched an interesting video that keeps you glued to the screen? Imagine a video that can provide you ideas on how you can reuse the junks in your home and turn them into useful decorations. You can get all these from watching 5-Minute Craft Projects.

Recently, I discovered an interesting channel on YouTube. The channel is called **5-Minute Craft Projects** by a Kedahan girl, Raihana Farisa. She is a productive high school student who has shared over 100 videos on her DIY projects ranging from simple origami to complex science hacks.

What intrigued me the most is the materials she used. Instead of using new and expensive materials, Raihana **used recyclable materials as well as junks** she found around her house. For example, she used old newspapers or schoolwork to make her origami. Not only that, she also repurposed worn-out tires from her dad's car into unbelievably astounding flower pots.

Moreover, Raihana also **provides step-by-step process to make each craft**. She recorded each video with her younger brother's help. She would show each step with precise details as she would comment about what to do and not to do. This is what makes her video so easy to follow. In fact, she would also crack jokes as she talks to her audience.

What distinguishes this 5-Minute Craft Projects from other creators' contents is the fact that Raihana would give us **suggestions on what to do with each product and where to place them**. For example, she showed how she used the flower pots made with the worn-out tires as decorations for her backyard. Another example is when she showed how she used the origami she made as decorations for her room's ceiling. I was so impressed by how junks I would throw away would look so stunning as decorations in her room!

To be honest, the 5-Minute Craft Projects videos are among the best things I have discovered online this year. It **filled me with joy** and **made me want to start my own DIY project**. This is why I would **recommend this DIY project to my friends**.

Imagine ordering food such as burger, shawarma and even desserts using an application on your smartphone without having to face the congested traffic? Believe it or not, you can do all this using an application called **Food Panda**.

Recently, I had the pleasure of trying this food delivery application. At first, I thought it would be difficult to use but to my surprise, it was **very intuitive and user-friendly**. For example, the shops are listed into categories such as western, traditional and even desserts. In fact, it also has “search” function where you can simply find your craved food if you do not know which shop sells it.

Moreover, this application also offers **variety of food choices**. You can find all sorts of different kind of food such as yong tau foo, cendol, curry mee and also laksam from the nearest restaurants and food outlets around you. Hotel 89: The Good and The Bad

By: Safripah Qistina binti Ziqran Zani

Have you stayed at a hotel before? Imagine a low-budget hotel that offers facilities such as swimming pool and gymnasium. You can get all these at **Hotel 89**.

Recently, I stayed at this hotel. It is located near the heart of Kuala Nerang Metropolis. It is an 89-storey building with over 150 rooms and almost always fully booked especially during festive seasons such as New Year and Eid celebration.

There many things to like about Hotel 89. What I enjoyed the most was the view from the swimming pool located at the top of the building. This **rooftop swimming pool** is open to all staying visitors. You can see the full view of Kuala Nerang Metropolis including the Kuala Nerang Trade Centre. Moreover, the rooms offered here are at **reasonable price**. You can get a deal as low as RM89 for single room with a queen bed.

Despite the affordable rate, this hotel's **customer service is very disappointing**. The receptionist was rude and judgemental. The housekeepers also did very lousy job at cleaning and preparing a room. In fact, **my room was messy and uncomfortable**. The air conditioner was not functioning well and there was funny smell coming from the mattress. The sheet also had weird stain and it was very disgusting.

To be honest, Hotel 89 may look impressive on the outside with its rooftop swimming pool but the terrible service and quality left me speechless. I personally **would not recommend this hotel to my friends** because it would **leave them with bad memories**.

Subject : Report on Pesta Buku Antarabangsa Kuala Nerang (PBAKN)

### Introduction

This report aims to highlight the advantages of attending a book fair.

### Pesta Buku Antarabangsa Kuala Nerang (PBAKN)

Pesta Buku Antarabangsa Kuala Nerang (PBAKN) is an annual event organised by Padang Terap City Council. This book fair was participated by many well-known publishers and authors from all around the world. This year, it was held at Tunku Putra Hall from June 3 to 12.

There are many advantages for attending this event. The most prominent benefit is we can get many books at cheaper price than recommended retail prices. We can also get discounted price for purchase over RM100. Moreover, fans can get their elusive chance for “meet and greet” session with their favourite authors such as Alif Teega, Iddin Ramli and Uddin Yahaya. Last but not least, we can also grab limited edition books and souvenirs that can only be found at this book fair.

### Recommendation

The event went smoothly but there are always rooms for improvement. The only notable problem for this book fair was the venue. Since it received overwhelming response, the place was overcrowded with visitors. Hence, it is suggested that the organiser should choose an even bigger venue for this event (in the future / for next year).

### Conclusion

In conclusion, PBAKN was a great success and it was beneficial for everyone especially students. It is hoped that abovementioned suggestion will be accepted.

### Introduction

This report aims to highlight the activities during the Merdeka Month Carnival and suggest ways to improve it.

### The Merdeka Month Carnival

This carnival is an annual event at our school. The aim of this carnival is to celebrate the month of Malaysia's Independence as well as raise patriotism among students.

There were many activities held during the carnival. The most happening activity was the launching of the Merdeka Month celebration. It was held at Tun Syed Ahmad Hall. This activity involves gimmicks and singing patriotic songs. Another activity favoured by students was Merdeka Treasure Hunt. This activity involves all students which were divided into two categories: lower and upper secondary. The teachers in charge were Mr. Syafiq and Ms. Afifah.

### Suggestions

This year's carnival went smoothly and it was a big success. However, there are still rooms for improvement. The major problem was the lack of participation from students. This is due to lack of promotion by the organising committee. It is our suggestion that the organising committee should promote the event through social media such as Instagram and TikTok. Another reason for this problem is because Form 5 students were not allowed to participate due to their upcoming trial exam. It is our suggestion that all students including Form 5 should be allowed to participate in order to improve the number of participation.

### Conclusion

In brief, the Merdeka Month Carnival is a good way to promote patriotism among students and therefore, it should continue to be held every year. It is hoped that the abovementioned suggestions will help to improve this programme in the future.

### Introduction

This report aims to highlight the beneficial tips gained from this seminar and provide suggestions to improve it in the future.

### ‘Kewangan Belia Madani’ Seminar

‘Kewangan Belia Madani’ Seminar is an effort by the Ministry of Finance in collaboration with Ministry of Education to educate teenagers on financial management. This seminar was held at Tun Syed Ahmad Hall on 27 January 2024.

### Beneficial Tips

There were many beneficial tips gained from this seminar. The most prominent tip is to record our expenses. Most teenagers do not keep track of their daily expenses, causing them to lose more money than intended. The next tip is to make a monthly budget on what to spend their money on. With this budget, teenagers will be aware of their spending and they can prioritise what they need over what they want. The last tip is to set aside some money for an emergency fund. This is especially helpful whenever teenagers are faced with unforeseen accidents.

### Suggestions

This event went smoothly and all participants gained a lot of beneficial inputs. However, there are always rooms for improvement. As the seminar received overwhelming response from our students, it is suggested that the seminar should be held at a bigger and more spacious venue. Another suggestion is to provide food for the participants since this seminar spanned over five hours with very short time for break.

### Conclusion

In conclusion, this seminar was a complete success and it should be held annually. It is hoped that our suggestions will be taken into consideration.
